The Canadian National Railways station and shipping yards have been very busy of late with greatly increased shipments of outgo-

ing freight and express and on Tuesday afternoon we had a special train comprised of seven coaches with some 500 passengers aboard who will spend the next few weeks in the many boys and girls camps located in the area.

Candidates presented to the bishop for confirmation at St. George's church on June 21 received their first communion at eight o'clock on June 28. The service was followed by breakfast in the church basement for which all preparation, including dainty, meaningful place cards had been undertaken by Gerry and Joan Malloy. Rev. and Mrs. J. H. MINISTER OF TRANSPORT REPORTS:

I have just received the complete accident statistics for the month of May and a report on the demerit point system showing the accumulation of points by individual drivers.

In regard to accident statistics it is noted that from January up to and including March of this year, there was an average monthly increase over 1958 of 13.7%, the increase of accidents in March being 28.8% over the same month last year.

With the introduction of the demerit point system accidents throughout Ontario on all types of roads were reduced in April by 11.2% to 4,039. In the same month fatal accidents were reduced by 33% with 59 fatalities compared to 88 a year ago.

The figures for the month of May show only a modest reduction in accidents of 4% with 5,597 accidents compared to 5,620 a year ago on all streets and highways in Ontario.

Fatalities, however, have increased in May of this year over the corresponding period last year with 95 fatalities compared to 68 last year. The accident rate on King's Highway has improved as compared to the accidents on municipal streets and roads. The percentage has dropped from 24.7 in 1957 to 23.8 in 1958 and to 21.8 so far this year. The increase in fatalities is to be deplored and it means that we must be ever more vigilant in the operation of the motor vehicle.

The initial impact of the demerit point system must be renewed by constant admonition to our drivers to respect the rights of others and through proper driving conduct save many motorists and pedestrians from needless injury and death.

The department will emphasize in its advertising program that safe practices are essential for all drivers. We shall take action through the demerit point system which involves at the nine point level a personal interview with each erring motorist. With public support there is no reason why continued reductions in accidents and fatalities cannot be expected.

The demerit point system reports that 96 people are at the six point level on a cumulative basis since April 1, as reported to June 15. At the personal interview level of nine points there are now 163 drivers and it is here that the probationary aspects of the system will be instituted. It is interesting to note that one person has reached the 12 point suspension level, actually compiling 14 points from two offenses, the first; failure to remain at the scene of an accident (nine points), the second, speeding in excess of 30 miles per hour over the speed limit (five points).

The Department will interview every person who reaches nine points and through such a review it is expected that accident prone drivers will be identified and many corrected in their driving behaviour. This program, together with improved driver examination, stepped up enforcement under the honorable the attorney general, and safety and driver education in the schools, promises to effect even greater reductions in accidents. The cooperation of the individual motorist is fundamental if this is to be accomplished.

ST. GEORGE'S W.A.

Members of St. George's W.A. were guests of Mrs. Taylor at the rectory for their closing meeting on June 23.

Prayers were led by the president, Miss Clarke and Mrs. Taylor read the scripture.

The two portions were chosen for the closing chapters of the story book, "He Cares," "The Aging" and "The Community."

In Psalm 71:1-8 the psalmist speaks for the aging: "Thou art my hope. O Lord God, Thou art my trust from my trust from my youth—I will go in the strength of the Lord God; I will make mention of the righteousness, even of Thine only. O God Thou hast taught me from my youth—now also when I am old and grayheaded, O God, forsake me not; until I have showed Thy strength unto this generation and Thy power to everyone this is to come."

And for "The Community" in St. John 15:12-17 Jesus speaks to us: "This is my commandment that ye love one another as I have loved you—ye are my friends if ye do whatsoever I command you."

An epitaph in an old English churchyard states that the 83-year-old whose body lies buried there was "cut off before her prime." Dr. Hatfield says in his book that this statement may be applicable to many in our own population in the not too distant future. People generally are living longer and our population as a whole is aging. Whatever the future holds, the facts of the present are challenging. The church has her own special message for those who are in the later years . . . the assurance of God's love for each of his children, regardless of age, of His loving protection and care. The later years are a time to get the whole of life and of death into perspective. It can mean a coming daily nearer to God. The church is a family in which there is no age limits, no retirements, where each member has an important place. In the economy of God there is no useless person. The privileges and responsibilities of membership are valid through life, each in accord-

ance with his ability must continue to make his contribution whether his skills are manual, mental, social or otherwise. Of vital importance is prayer by which the work of the church is strengthened and enriched and this is an avenue open to all."

It is expected that the proposed "Over Sixty Club" will be a centre of united activity in our community.

In considering the church's ministry to the total community "three particular types of community are demanding special attention—the downtown heart of great cities, the rural and small town areas and the international land world community."

Much is being done through counselling centres, fellowship groups, language classes and social gatherings for new Canadians, and the many social agencies.

The leadership of people like the Rev. Fred Peter and his sister through the technical services association in Pakistan is invaluable. Many wells have been drilled to irrigate land and provide an adequate water supply for communities, industries and schools, bringing good health and new life to the areas served.

Groups of families are settled on land that has been reclaimed and for which a water supply has been provided.

Supported by our Woman's Auxiliary, Miss Elsa Peters continues her work among women teaching them to sew, knit and embroider articles of high quality. Payment for this work gives independence to women refugees from the 1947 trek back from India and adds to the meagre budget of many a Christian family. In connection with this work is a program of liter-

acy, instruction in hygiene and Christian teaching which brings new life to these women.

We are all deeply involved in international or world community whether we like it or not. Nations and systems diametrically opposed are now within hand's breadth of each other and the problems are intricate and terrifying.

The Christian has as his vocation the making of peace and the prayers of the church are effective instruments in the working out of the purposes of God.

We need to pray constantly for reconciliation in a broken world community. To do this effectively involves worship, study, thought and action which should result in a great outflow of Christian compassion. That compassion will prove to be the means whereby the Christ who cares will redeem and reign.

During a brief business session, pledges were paid, extra cent a day and special donations were received.

Mrs. Taylor spoke briefly and reminded us that whether in a big city parish or a small church such as our own, we are linked in the same familiar form of worship that draws us together in fellowship.

Mr. Taylor joined us after the close of the meeting and expressed his appreciation of the support received from the W.A. members.

The meeting closed with prayer for the sick.

Mrs. Taylor was assisted in serving lunch by the hostesses, Mrs. Tolbert Johnston and Miss Williams.

The next regular meeting will be at Mrs. Hunter's on September 8.

WILBERFORCE

The Wilberforce comedy
and dramatic club are still
winning laurels for their
play "Raggedy Nan." This
time at Warsaw on June 24
when they entertained a
large audience. The play was
added enjoyment to the resi-
dents of Warsaw who had
just partaken of a delicious
strawberry festival supper.

The annual bus trip for the
school children, organized by
Mrs. Kellett was, this year,
to Midland. There are a num-
ber of interesting spots at
this location and the children
were entertained by a visit
to a filtration plant at Oril-
lia, then on to Midland where
they viewed a fascinating In-
dian park and historic mu-
seum. At Penetanguishene
they inspected a military his-
toric site then back to Mid-
land to the ever interesting
martyrs shrine. The break
down of the bus on the way
home helped to make this a
memorable occasion. Our
thanks to Mrs. Kellett and
Mr. Bedell for providing this
happy day.

Another big event for the
school children was the pre-
sentation of a brief case to
Mr. Bedell from the entire
school. Mr. Bedell has proved
to be one of the most popu-
lar teachers the school has
known. He has participated
in all the activities the chil-
dren enjoy, working tirelessly
with them at track and field
games, hockey, baseball, the
music festival and in many
other ways. With the presen-
tation, made by John Deter-
ling, a speech of thanks was
read by Lynne Barnes. Mr.
Bedell will long be remember-
ed by the students.

Miss Greta Matchet and
Dr. Don Curry were week
end guests of Mr. and Mrs.
Keith Tallman.

The day planned for the
Sunday school picnic turned
out to be a rainy one but it
takes more than rain to
quench the spirits of the
young and the pupils gather-
ed together in the basement
of the church to carry on
with the fun.

Mr. Darryl Broughton with
his friend Mr. John Burke
spent the week end at Ter-
race Inn.

A shower for Miss Jill Cam-
eron took place on Satur-
day, June 27 at the home of
Miss Emily Billings. A very
pleasant evening was spent
with about 20 friends pres-
ent. Miss Cameron will be
married to Mr. Frank Solmes
of Lindsay on July 4. The
wedding will take place at
Lindsay.

with all your CREDIT NEEDS...

BANK OF MONTREAL

Family Finance Plan

Brings all your personal credit needs under one roof
with a low-cost B of M life-insured loan

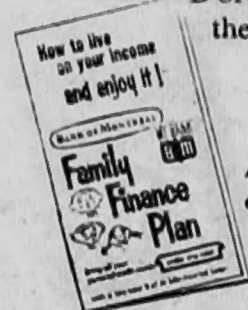

Now all your personal credit needs can be fitted into one single comprehensive plan—the Bank of Montreal Family Finance Plan. Purchases for the home and family... expenses for school, college and vacation... unexpected emergency bills... all these can be taken care of on a single-monthly-payment basis.

Here are four good reasons why—whether married or single—your credit-financing should be on the low-cost terms of the Bank of Montreal Family Finance Plan:

- 1 All loans are automatically life-insured. Should you die before your loan is repaid, your debt to the Bank will be cancelled.
- 2 Monthly repayments can be extended up to two years—or even three, if need be. This means that the Plan can be tailored to suit any salary.
- 3 You can borrow up to \$3,500, depending on your income, to buy the things you want for your home and family, or to meet emergencies.
- 4 Planned repayments help you run your income—instead of letting it run you.

If you have a steady income and can make monthly loan-repayments without hardship, there's money available to you at the B of M to serve almost any useful purpose. Whether you are a B of M customer or not, talk to the people at your neighbourhood branch... a warm welcome awaits you.

UNCLE DUDLEY'S COLUMN

Nature has excelled herself this season in the profusion of color from the native flowers and plants. First the hepatica, followed by the trillium, adder tongue, later the wild columbine decked the shady spots and now a galaxy of color in the old fields from the daisy, buttercup and Star of Bethlehem.

As we read considerable criticism of our land from some of the new Canadians, it is refreshing to read the words of Dr. Basirch, a Polish immigrant to the U.S. about 1855: "If I did not stand ready to consecrate heart and soul and all that I possess to the defense of my adopted county, I would despise myself as a scoundrel and a perjurer and regard myself as an ingrate to the government, which has for 60 years enhanced and protected my life, my honor and my happiness."

This Canada of ours, at this critical time, could use many adopted sons and daughters of this calibre.

With the arrival of summer the wayside tables of the Dept. of Highways and township areas are taking on a note of activity. It would seem the district could use more of these, although it would create a need for more supervision which would increase taxes. Naturally everyone is "agin" this phase of the picture.

Goodbye now.

RIBES ERADICATION

White pine blister rust in the Lindsay district is doing serious damage to white pine whether in plantation or natural stands. Therefore to reduce the mortality caused by this disease a program to eliminate the alternate host "ribes" (gooseberries, red currants, black currants and skunk currant) is presently underway.

The system of eradication varies from area to area. At Dunham and Victoria forests, gooseberries were prevalent and because of shallow rooting and fewer numbers, hand pulling is most feasible. On Crown land planting project areas in Methuen and Glamorgan townships pines are being protected by the use of chemical spray. Spraying here was necessary due to the fact that the chief "ribes" were either vast quantities of deep rooting skunk currants or very large gooseberry plants.

These projects employ local labor, and are carried on immediately after spring planting. At this time of year the leaves of the "ribes" plants which are first to show are very conspicuous.

As the spring progresses other plants leaf out making it difficult to locate the ribes. Eventually control becomes uneconomical, due to the problem of plant detection. These projects will continue over a period of years until the areas surrounding the white pine plantations may be set free from the threat of this disease.

ADMISSION 75c

Promoters: Louis Trepanier, Nick Bedrick M.C.

(Continued from Page One) start the meeting was on hand.

Those present were reeve Emmerson, deputy reeve Nicol, councillors Cowen and Feir.

Subdivision operators are continuing to absorb more and more of council's time which means that other matters in the municipality often do not get the prompt attention they should.

Council approved the following land conveyances:

Lot 14, con. VIII, Albert J. Perrin to James Perrin.

Part lot 17, con. IX, Albert R. Allen to Russell E. Cowen and Marilyn Cowen.

Part lot 17, con. IX, Al-

bert R. Allen to Stanley G. Hill and Irene Hill.

Russell Schickler is to be informed by letter from the clerk of council's intention to improve the road on lot 22, con. V, Harcourt.

Council are, at last, to take action to correct the situation at Long Lake and a by-law will be passed at the next session of council instituting proceedings to have the gate which at present prevents access to the lake removed. Council monies have been expended on this road for the past 22 years and council are prepared to stand for no further nonsense in this matter.
